Time: 8:30AM-5:00 PM Friday & Saturday

AFTER A PARTICULARLY STRESSFUL LAST COUPLE OF YEARS IT IS TIME TO FINALLY 'GET THE BAND BACK TOGETHER'. So, make your plans to attend the Advanced Biomechanics XXXI Course. It is once again an honor and a privilege for me to be hosting this course for the 31st year (we are forgetting 2020). For participants of previous 'Biomechanics' courses this program will be a combination of clinical techniques with direct correlation of specific treatment problems through the use of case presentations.

As you know for the past few years I have ask the group to submit ideas for topics for the next year's course. This results in numerous request to answer specific questions regarding specific treatment problems and I have attempted to group these together in order of the most requested items. Additionally, I will be presenting more cases under the category of 'Why did/is this not work/ing??' as well as cases entitled 'How could this be done better??' Additional, information and updates will be provided on many previously discussed topics. So, this year's seminar will seek to address a variety of items (including answering many of the specific questions that were asked). See the list of 'Clinical Learning Objectives' below.

This will not be a repeat of last year's information.

Multiple cases will be utilized to demonstrate various aspects of mechanics and treatment modalities with particular interest

**paid to the best available 'evidenced based information'.
Additionally, multiple treatment 'pearls' will be shown to make
your practice easier and more efficient.**

Participants Case Consultations

Participant's individual cases will be reviewed at 5:00PM on Friday and 5:00PM on Saturday after the course. Should you decide to bring the records on a case from your office, be sure that it has been completely analyzed and treatment planned prior to our discussions. In order to give you an opinion, it is necessary that you present complete and accurate records, and that you follow the "analytical and cephalometric guide-lines" previously set.

Registration Information

Tuition is **\$1100** and includes handout materials, break refreshments, and **LUNCH BOTH DAYS**.

Please kindly take a minute to fill out the course registration below and forward your registration and tuition deposit of \$100 as soon as possible. **Registrants will receive confirmation, hotel information, directions to the course site, participant list, and all other course details by e-mail.**

Some of the Clinical Learning Objectives (Lecture Style Course)

- 1) Update on direct consumer orthodontic treatment.**
- 2) Class II correction utilizing aligners, including mixed dentition treatment, 3D printers and digital monitoring.**
- 3) Asymmetric Class II correction.**
- 4) Controlling torque in the incisors. Including torquing palatally displaces incisors.**
- 5) Why isn't this working (a look at some common orthodontic treatment mistakes).**
- 6) When to distalize and when to extract.**
- 7) Update on maxillary expansion (different expansion appliances including TAD supported expanders).**

- 8) Lower incisor extraction cases (when, where and how)?
- 9) When is it time to take the braces off???
- 10) Learn multiple 'pearls' for practice management of orthodontics in a non-specialty practice dealing with patients and parents and supply inventory.
- 11) Simple relapse solutions and retention protocol, results and criteria.
- 12) *'What I wish I knew sooner' (a critical look back at 37 years of orthodontic experience).*

I am sure that you will find this seminar to be an exciting, motivating and provocative experience in the continuation of your orthodontic educational pursuits. **PLEASE TAKE A MOMENT TO FILL OUT THE REGISTRATION FORM BELOW AND MAIL IT WITH YOUR DEPOSIT.** A confirmation will be sent to you with specific hotel information once your registration is received or you can contact the hotel directly from the booking link that will be sent to you once I receive your registration.

If you have any questions, please don't hesitate to call me at 561-707-7483, or E-mail @ Lowenhaupt@MSN.com. Best regards to you and your family, stay safe and healthy and I'll look forward to hearing from you and seeing you in 2023.

Sincerely,

Eric

Eric B. Lowenhaupt, D.D.S.

ADVANCED BIOMECHANICS XXXI

Registration

January 27 & 28, 2023

Sponsored by: Gnathos-South Inc.

Gnathos South Inc is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit.
